

MINING, BUSINESS AND STOCKS

DEVELOPMENT OF BINGHAM GROUP

An Eastern Stockholder Visits Copper Camp and Arranges For Development.

WILL USE LAST CHANCE ADIT.

Property to be Scene of an Energetic Campaign of Development—In Good Location.

Walter B. Farmer, treasurer of the New England Bolt and Nut Co., of Boston, was in Bingham during the week for the purpose, says the Bulletin, of conferring with R. L. Booth of Bingham Junction and arranging for the development of the holdings of the Bingham Group Mining company, consisting of the Old Greely-Sacred group, which includes the Mountain Gem No. 2, Horace Greely, Crescent and Sacred claims in the West Mountain mining district, Bingham.

The history of these claims in the last thirty odd years has been uniform in the fact that whenever worked they have produced high grade, in paying quantities, although worked by the simplest hand process. Some three years ago Mr. R. L. Booth secured a bond and lease option, which required the organization last July of the Bingham Group Mining company, capital stock \$500,000, with Messrs. Booth, Farmer, Smith and several other Boston men of wealth, now interested, who propose to develop the property by the use of an up-to-date equipment, increasing the force of men and enlarging the output. Recently arrangements have been completed by which this company has secured the use of the Bingham tunnel through which it will operate on the 200 foot level, taking ore from the Greely vein.

The above named gentlemen were in Bingham Friday and Saturday and made a thorough inspection of the old Greely-Sacred Group of claims with the result that it was decided to at once push development work. The new company, with a capital of \$500,000, propose putting in up-to-date equipment and making the property one of the dividend payers of the camp.

The company has secured the right to use the last Chance or British tunnel, which is over 3,000 feet in length, and is the only part of the tunnel that will be used by the company. Because of the fact that the tunnel has been at many places during the two years it has remained unworked, it will be necessary to thoroughly clean it out and to restore the air circulation.

The present company contemplates putting a large force of workmen on the property and adding such machinery as is necessary to facilitate rapid development.

Those familiar with the territory unhesitatingly pronounce it one of the best propositions in the camp and with the present company behind it there is every reason to believe that it will soon be among the largest of the Bingham products.

ON MINING EXCHANGE

Columbus Co. Put Up as Collateral Dumped on Market.

The big feature of the week's doings on the floor of the mining exchange was furnished by Columbus Consolidated. The stock was thrown onto the market in large quantities, which was due to the release of a big block held by the price was knocked down considerably, the stock was readily absorbed. There has been some selling of Daly-Judge around \$6.50, while the stock declined somewhat. Outstanding good reports still continue to come from the mine.

Today's closing quotations and sales were:
